

# Adding a Financial Calculator to Your Website

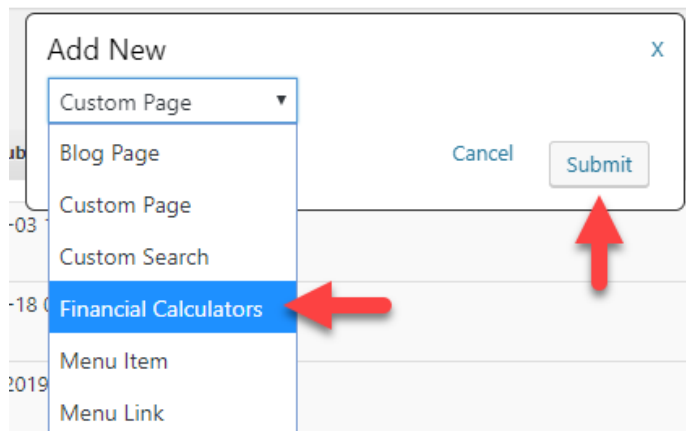

Adding a financial calculator to your Agent Website can be a great way to keep clients on your site. By offering different tools you help to make your agent site a one-stop-shop for clients looking to work with an agent.

## Adding a Financial Calculator to Your Website

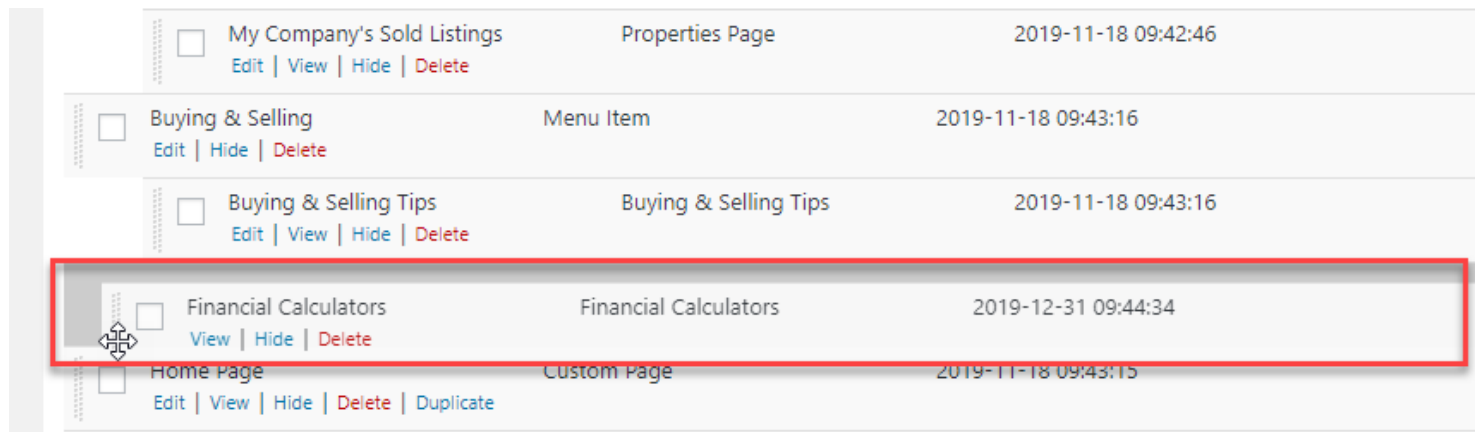

1. From the Site Pages screen, select **Add New** (see below).

2. Select **Financial Calculator** from the drop-down menu then select **Submit** (see below).
  - a. **Note:** If you do not have this option, you already have a Financial Calculator added to your site.

3. Your new page will appear at the bottom of your page list. **Drag and drop** your new Financial Calculators page wherever you would like to see it in your page navigation (see below).

4. Select **Publish** on the bottom right to save your changes and make your page go live (see below).
