

Adding a Featured Video to Your Homepage

When setting up your website, you might want to add a special video for your visitors. You can easily add a video to your homepage from Vimeo or YouTube using the information below:

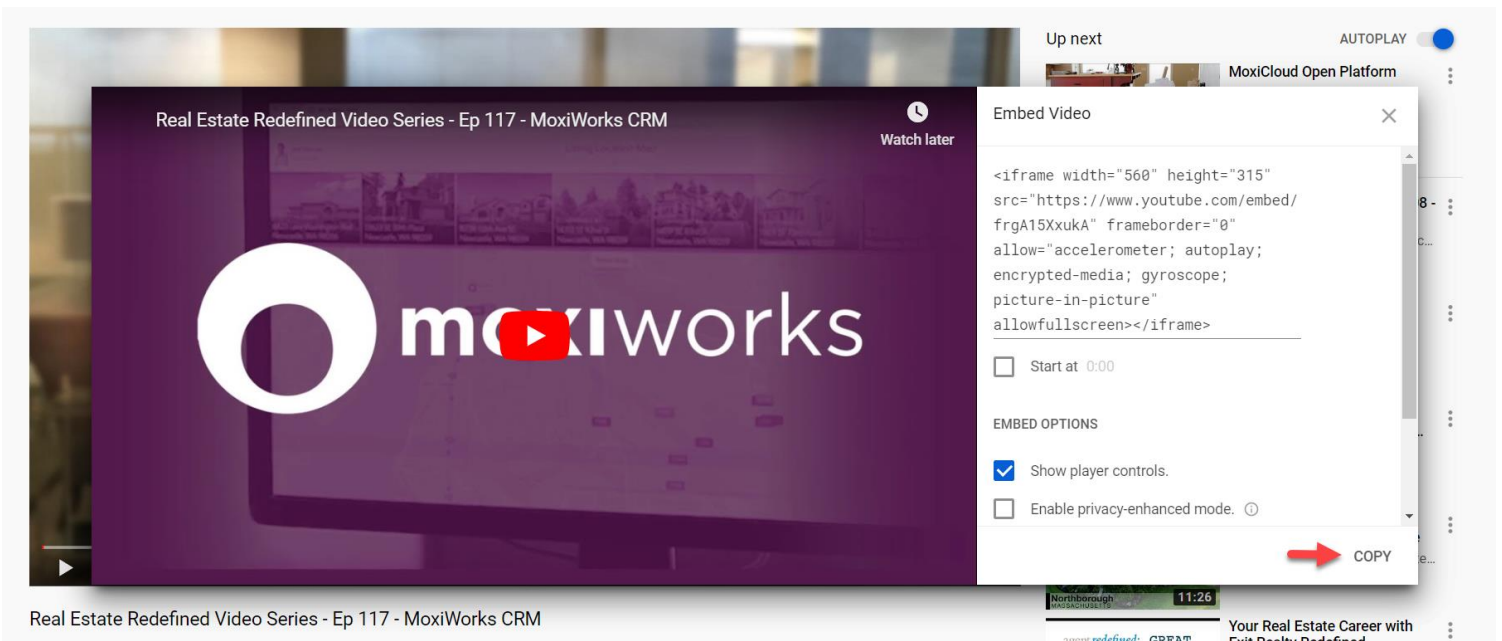

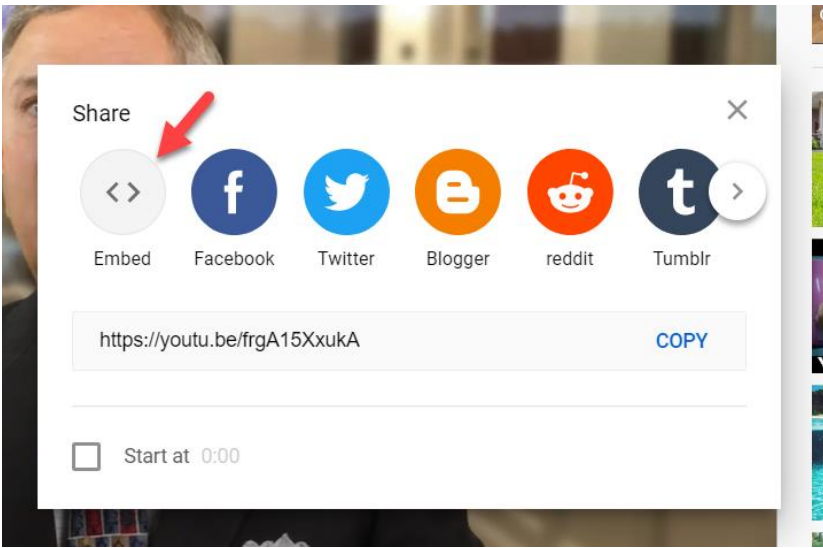

Adding a Featured Video to Your Homepage

1. Go to your video sharing site. In this example, we will be using YouTube.
2. On the video, you wish to add, click Share (see below).

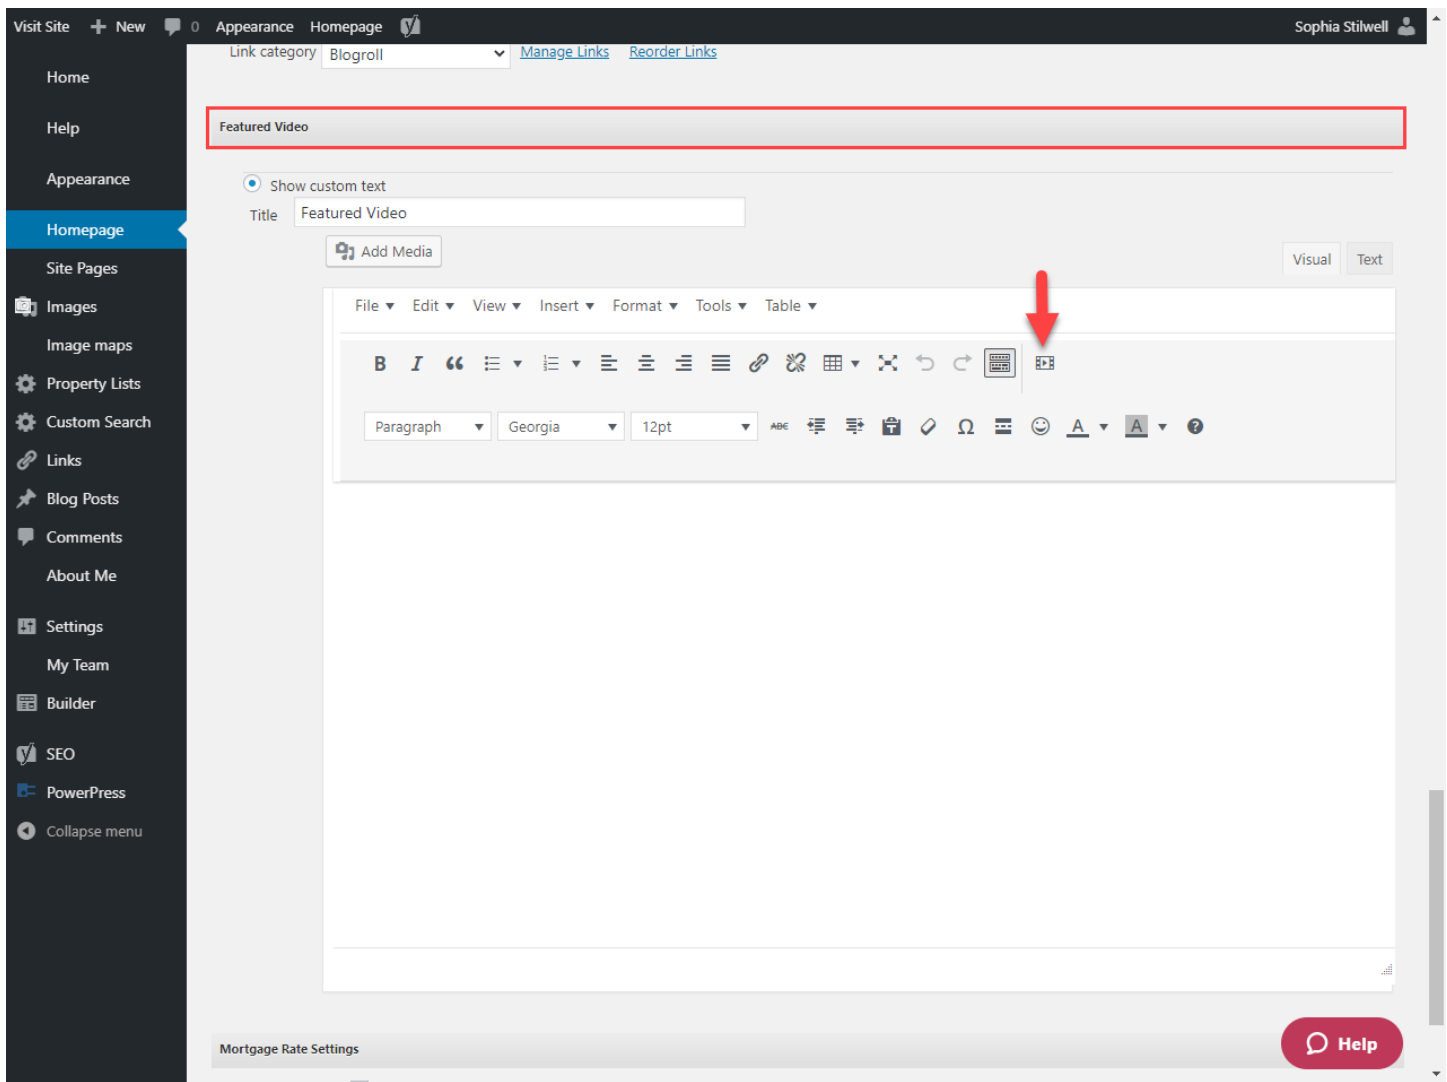

The image shows a YouTube video player interface. The video content is a man in a suit speaking in an office setting. The player controls at the bottom include a play button, a progress bar showing 0:00 / 6:35, a volume icon, a closed captions icon, a settings gear, a full screen icon, and a share icon. Below the video, the title "Real Estate Redefined Video Series - Ep 117 - MoxiWorks CRM" is displayed, along with "93 views • Dec 10, 2019". At the bottom right, there are buttons for "LIKE", "DISLIKE", "SHARE", "SAVE", and a three-dot menu. A red arrow points to the "SHARE" button.

3. Go to Embed Code and copy the provided code (see below).

4. Navigate to your website Homepage.

5. Under Featured Video, select the Insert/edit Media option (see below).

6. Choose Embed and paste your copied code and select Save (see below).
