## How to I print my presentation from the MoxiPresent homepage?

## Question:

How to I print my presentation from the MoxiPresent homage?

## Situation:

You need to quickly print out your presentation but don't want to edit and wait for it to load.

## Answer:

1. From the Present homepage, select the **three dots** on your presentation to open the presentation option menu.

2. Choose View from the list then select Print Presentation.

3. A PDF version of your presentation will generate for you to print.

a. Note: we suggest downloading the PDF for the best print quality.

4. **Print the PDF** from your computer as needed.
