

Adding Testimonial Tree to Present

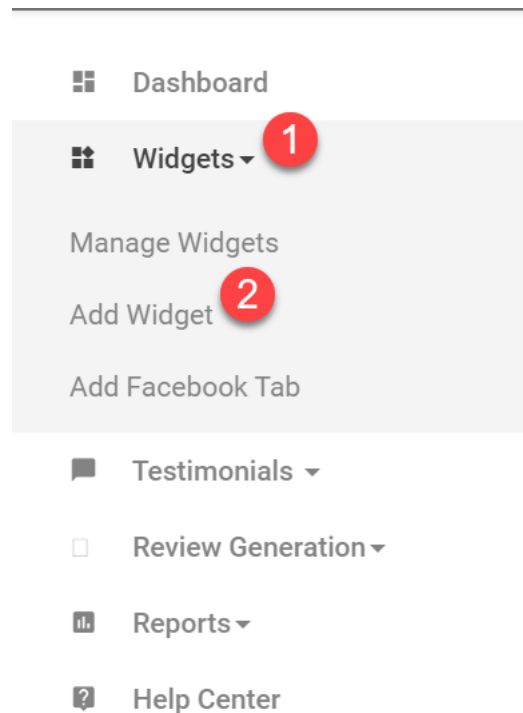

In Moxi Present, you can add web content from other sites to your CMA by creating a custom page. Here is an article on how to create a custom page in Present

[Create a Custom Page](#)

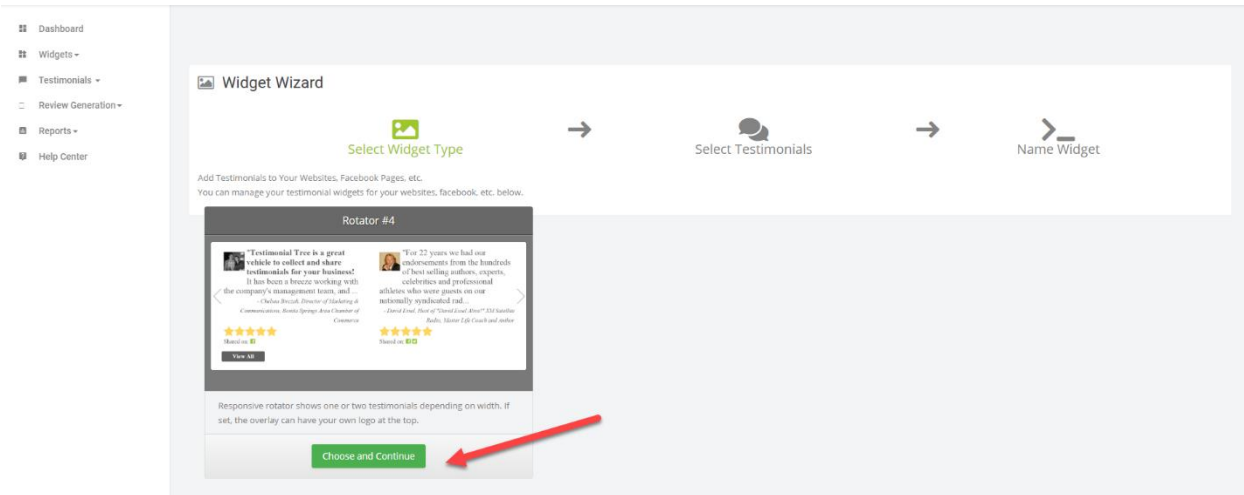

First, you will need to generate a widget from your Testimonial Tree account to input into your custom page.

HOW TO CREATE A TESTIMONIAL TREE WIDGET

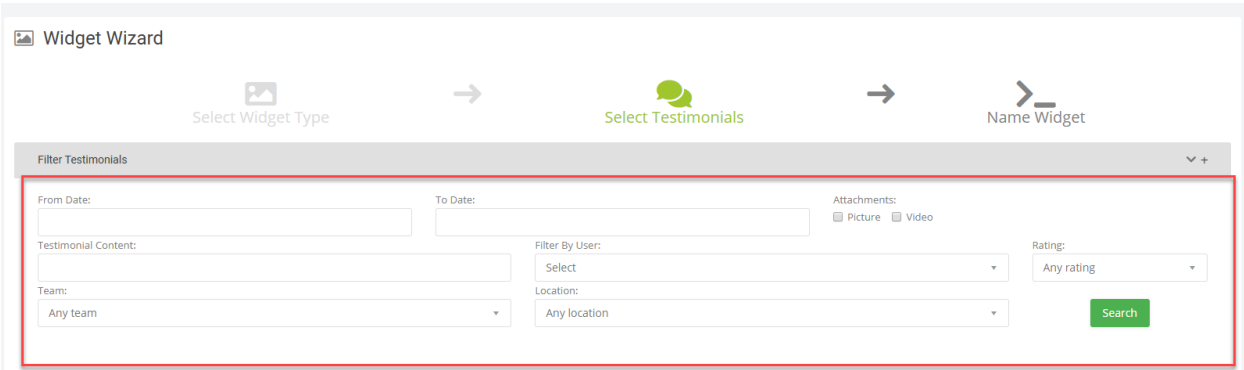

1. Go to **External Links**, then open Testimonial Tree.
2. In the dashboard, click on **Widgets** to expand the sub-menu then select **Add Widget**.

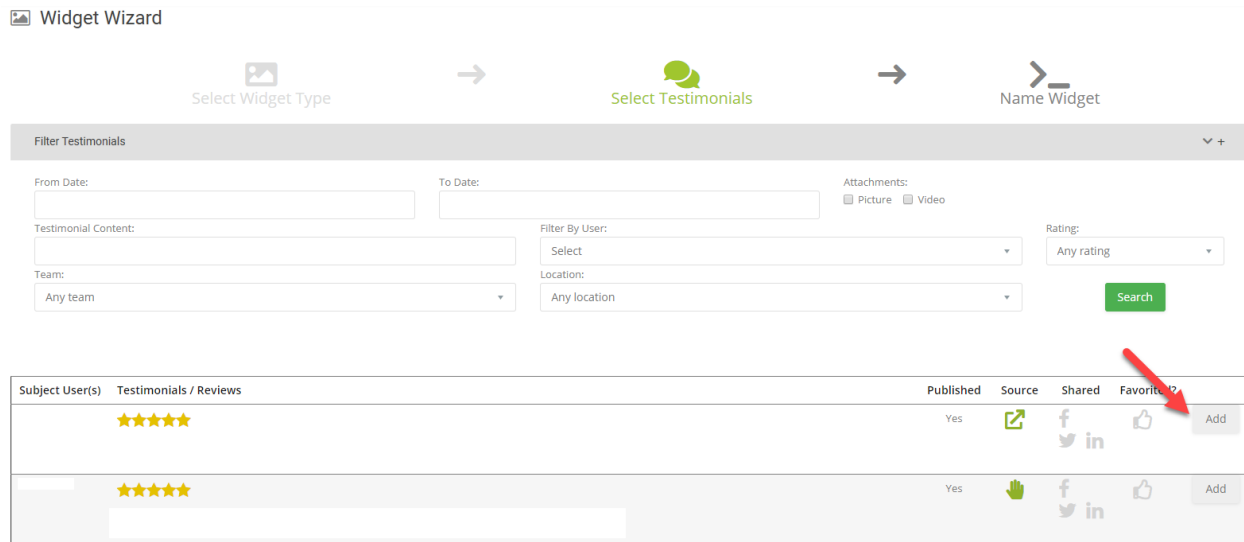

3. Choose your **Widget Type** by selecting **Choose and Continue**.

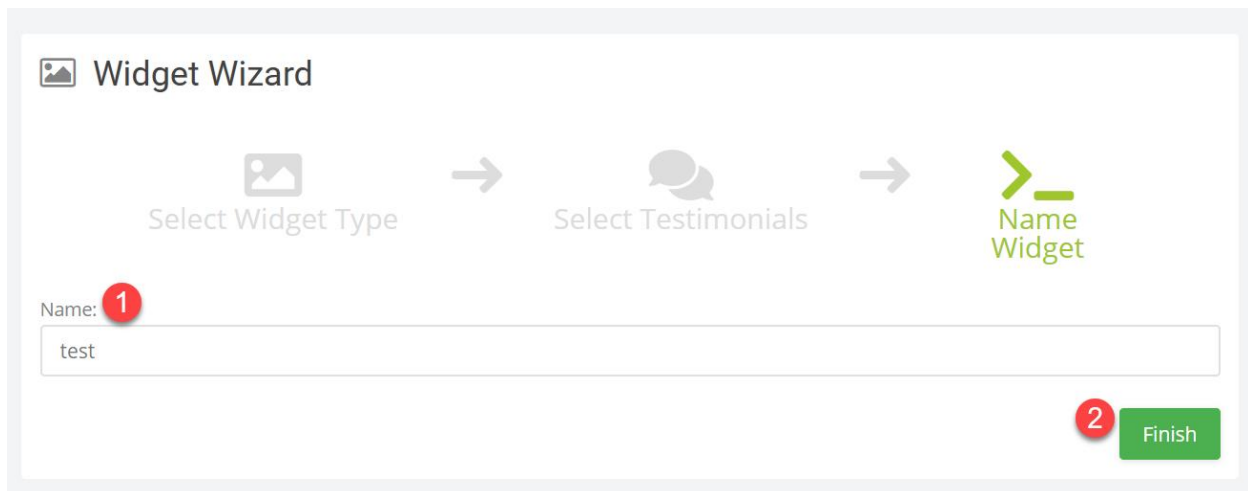

4. Set the time frame, ratings, location, and other search criteria to filter out which testimonials you would like to find.

5. Select the **Add** button on any specific testimonials you would like to include in your Present page. Then, scroll down to select **Continue**.

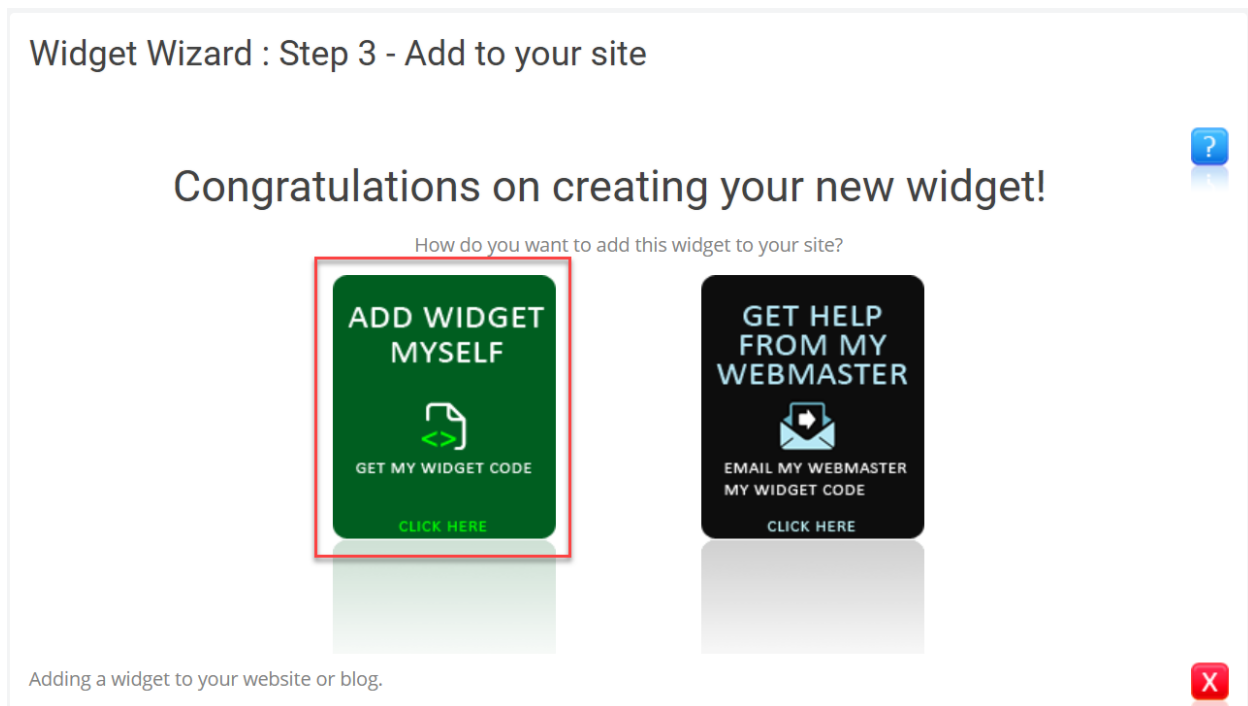

6. Title your widget and select **Finish** when you're done.

The screenshot shows the 'Widget Wizard' interface. At the top, there are three steps: 'Select Widget Type', 'Select Testimonials', and 'Name Widget'. The 'Name Widget' step is highlighted in green. Below the steps, there is a text input field labeled 'Name:' with a red circle containing the number '1' next to it. The input field contains the text 'test'. To the right of the input field, there is a green button labeled 'Finish' with a red circle containing the number '2' next to it.

7. The system will give you two options now. Choose "Add Widget Myself" to receive your code for your custom page.

The screenshot shows the 'Widget Wizard : Step 3 - Add to your site' screen. The main heading is 'Congratulations on creating your new widget!' with a blue question mark icon to the right. Below the heading, there is a question: 'How do you want to add this widget to your site?'. There are two options: 'ADD WIDGET MYSELF' and 'GET HELP FROM MY WEBMASTER'. The 'ADD WIDGET MYSELF' option is highlighted with a red box. It includes a green icon of a document with code symbols, the text 'GET MY WIDGET CODE', and a green 'CLICK HERE' button. The 'GET HELP FROM MY WEBMASTER' option includes a blue icon of an envelope with a code symbol, the text 'EMAIL MY WEBMASTER MY WIDGET CODE', and a green 'CLICK HERE' button. At the bottom left, there is a note: 'Adding a widget to your website or blog.' At the bottom right, there is a red 'X' icon.

8. You have two options here: the iFraming code and the webpage URL. Either of these will work with your presentation.

 **Widget Wizard : Add This Widget to Your Website(s)**

Here's your "widget" code that can be used to add testimonials that you have collected or entered through Testimonial Tree to your website.

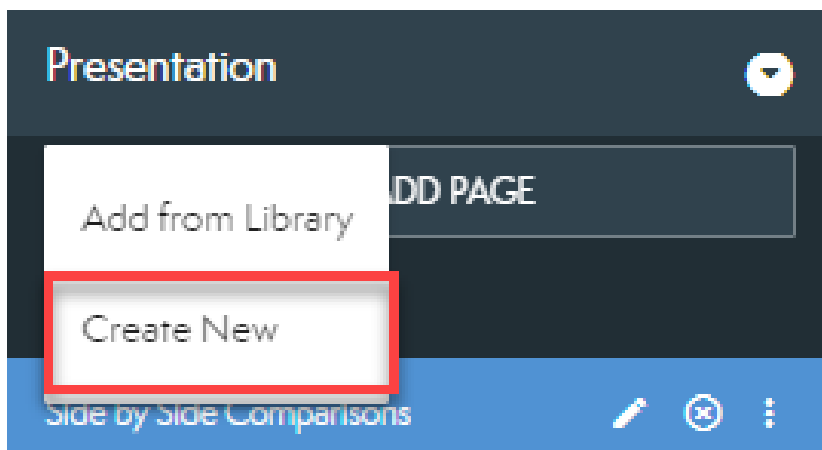

Option #1: Widget Code / Javascript
Choose the area on your website where you would like this widget to show
*note:you might want to make a new page if you are using a list type widget.
Copy/paste the code below into the HTML/Source Code of the page.
Remember to add testimonials to the widget, if you haven't already.

```
<div id="TestimonialTree_Widget_37220"></div>  
<script src="https://testimonialtree.com/widgets/?widgetid=37220" type="text/javascript"></script>
```

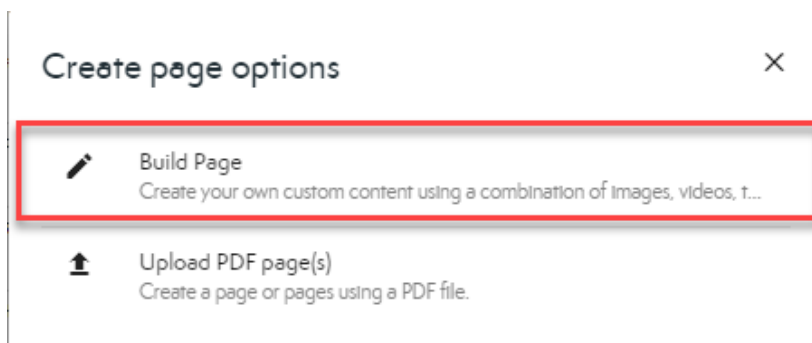

Option #2: IFraming
In this option, your widget is placed in a webpage that can be framed into your existing website.
<https://testimonialtree.com/widgets/widgetFrame/?widgetid=37220>

HOW TO INTEGRATE YOUR TESTIMONIAL TREE CODE/URL INTO PRESENT

1. From the **Pages** tab of your presentation, select **Add Page** then choose **Create New** from the drop-down menu.

2. Select **Build Page** from the pop-up (see below).

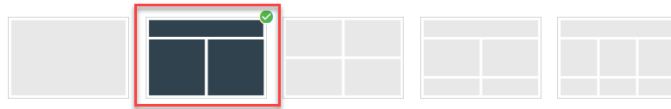

3. Choose your desired page layout then select **Create** (see below).

Choose a layout to get started

You can add images, text, videos and more

CREATE

Have an existing PDF? [Upload it](#)

4. Select **More** from the page options (see below).

5. From the Settings Bar, select the **iFrame globe** (see below). Only choose this option if you copied the webpage URL. If you copied the code, select the **Embed Media** option.

6. In the pop-up, enter the code or webpage URL from Testimonial Tree into the empty field then select **OK**. Save the page then close out of the Custom Page editor to see your testimonials. It should look something like this (see below).
