# With MoxiWorks,
# We don't replace agents.

We strengthen them.

 MoxiEngage

MoxiEngage Dialer & Messenger

Message with clients and prospects, call and drop voicemails, schedule and send text blasts — and track each touch point along the way right within MoxiEngage.

The Problem for Agents …

We've all been plagued with these thoughts, usually as we're trying to fall asleep…
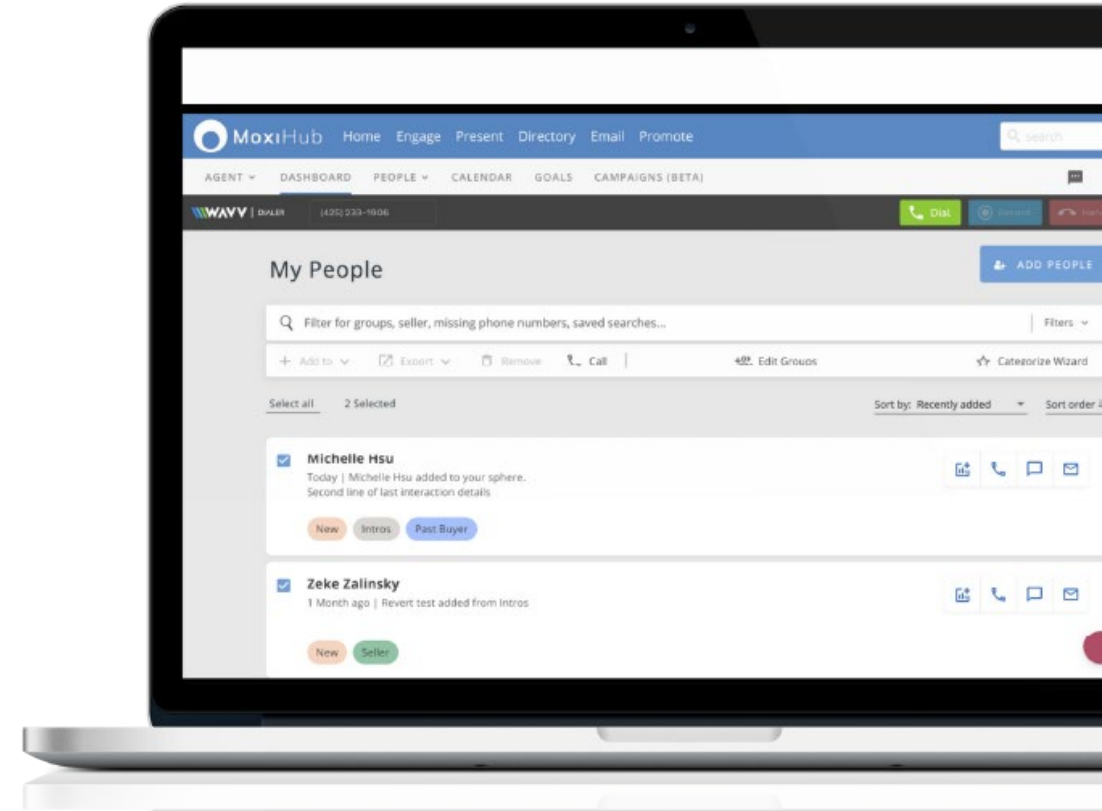

"Did I leave a voicemail when I called Mr. Chen?"

"Did I wish Shari a happy birthday?"

"My coach needs me to reach out to 3 people per day, did I remember to do it?"

MoxiWorks

The Solution!

MoxiEngage Dialer & Messenger

- Call, message, leave voicemails all within MoxiEngage

- Schedule and send messages including one-to-many (blast) messages

- Track each touch point along the way in your contact's activity history.

- Users can purchase subscriptions that best fit their business goals
MoxiWorks

OLD WAY

- Other dialers and messengers focused on replacing the human relationships. Investment was wasted on inauthentic experiences.

- Most providers focus on cold leads wanting immediate attention, but seldom turn into real business

- Brokerages are misdirected and end up investing previous budget into tools that REPLACE an agent instead of empower the agent

NEW WAY

- MoxiEngage Dialer & Messenger use automation to strengthen relationships, eliminating tedious steps between the conversations.

- You and your agents can focus on warm leads to build a community of reliable referrals and repeat customers.

- More than two-thirds of all seller transactions come from an agent's sphere of influence — so why invest your money elsewhere?

MoxiEngage Dialer Functions

Easy Setup & Click-to-call

Dive into Dialer directly from MoxiEngage — no need to add a second application or learn a new login. You can call any contact with a simple click of a button throughout MoxiEngage.
Dedicated Number

Call through MoxiEngage Dialer using any number you own as your caller ID. You can show your cell phone, office phone, or even a google voice number when making a call.

Live Answer Detection

Save time by making templates of your most-used content. That birthday or anniversary message is just a few taps and on its way. You can also schedule messages ahead of time, making sure you're staying in touch with clients.
Advanced Voicemail

Pre-record voicemail messages and quickly drop them in your contact's voice-mailbox while calling. No more stress to re-record the same message on the spot or forget important details.

Audio Options

Choose to listen and speak through your computer's audio OR with your own telephone. No need to choose between your favorite Bluetooth headset.

MoxiWorks

Easy Setup

Make waves with Messenger directly from MoxiEngage — no need to add a second application or learn a new login. You can text any lead with a simple click of a button throughout MoxiEngage. All your messages sync to your contact activity history.

Dedicated Number

Your MoxiEngage Messenger account lets you choose a dedicated phone number to send text messages from. You won't be sharing this account with anyone else so clients or prospects can respond directly back to you. We offer area codes from all over the country so you can choose a number that works best for your area.

MMS

Found a great meme? Crafted a gorgeous graphic around your new listing? Send your multimedia in style. MoxiEngage Messenger supports MMS messaging – not just text.

Templates & Scheduling

Save time by making templates of your most-used content. That birthday or anniversary message is just a few taps and on its way. You can also schedule messages ahead of time, making sure you're staying in touch with clients.

Mobile App

Receive, send, and track your MoxiEngage Messenger history from anywhere you take your phone or tablet with the Messenger App provided by WAVV. Push notifications keep you in the know 24/7.

Blast Messaging

Got something exciting to send to lots of contacts? Use the blast messaging tool to send a one-to-many text message, and even personalize the content using fields from your MoxiEngage contacts like name, address, etc.

MoxiWorks

Why Agents Need Dialer & Messenger

- Sphere works – stay in flow from every angle in one place.

- Avoid log-in fatigue

- Save time and stay focused

- Purchase choice gives each agent the authority to select the plan that best fits their business needs.
  - No two agents are exactly the same, and all agents deserve technology that empowers the way they run their business rather than dictate each step.
